OneGoal Fellows are approximately 1.5x more likely to earn a degree than their peers from similar backgrounds

Why We Are Here

A postsecondary education – college, trade school, and other pathways – unlocks opportunities for students and entire communities. Yet for millions of underserved students, it remains out of reach. In Georgia, 60% of jobs require a postsecondary education, but only 29% of students in Metro Atlanta obtain a postsecondary credential within five years of high school graduation*. This is not for lack of ambition or talent, but for lack of support.

Our Results

ENROLLMENT

71% of OneGoal Fellows in Metro Atlanta enroll in a postsecondary institution

PERSISTENCE

70% of those persist one year after high school graduation

86%

of OneGoal high school students in Metro Atlanta complete their FAFSA

Building a Generation of Graduates in Georgia

Navigating the postsecondary landscape is complex, especially for first-generation students and students of color. But after 15+ years working alongside educators and students, we know what works. With OneGoal, schools make college + career planning an integral part of the high school experience.

OneGoal

A class that changes futures

A 3-year model that prioritizes students in the academic middle who are often overlooked by other interventions. It starts as a class in 11th grade and continues with support through the first year after high school graduation.

OneGoal Leadership Network

Leaders creating opportunity

A systems-level, multi-year path to improvement that transforms postsecondary leadership at the district level, closing gaps and increasing outcomes for all students.

Without OneGoal, I don't think I would be where I am in my college and career pathway. They gave me so much guidance and helped me assess the many career options I have. And their enrollment grant got me through some tough times. I truly wouldn't have been able to make it without it."

Tasia Roland

Mays HS, Clayton State University
